SUPPLY OF BOTH SWEET AND IRISH KINDS IS LARGE.

Local Grain Market Yesterday Was a pins, 60@65c per box. Little More Active, but Prices Still Tended Lower.

Interest continues to be manifest in nearly all lines of trade in about the same degree that has marked trading for several days. Vegetables, aside from Irish potatoes and sweet potatoes, are plenty and selling at as low prices as in any former year. The daily receipts on Commission row bear evidence that a fully average crop has been realized. The oldest commission merchants do not remember a year in which in August the supply of peaches, pears and apples has been more abundant

and sold at more reasonable prices. Tropical fruits range a little higher than last year, but the demand is not so great as for less expensive fruits. Lemons, however, are on the decline with the falling off in demand. But few oranges are offered and few are wanted. Canned goods are not in as strong a position as two weeks ago, despite the efforts to boom the market. The attempt to boom the price of tomatoes, it is stated, has not been crowned with the success expected, and the same remark will apply to corn and peas. Dried and evaporated fruits carry a firm tone, and higher values for raisins are indicated. Eggs, fresh stock, are maintaining a strong position. Butter is firm if the stock offered is choice, but poor butter meets with slow sale unless at low prices. There is a, decided improvement in the poultry market, the homecoming of summer absentees making itself perceptibly felt in the consumptive demand. Wholesale grocers are enjoying an excellent business and steady prices, so that, with small margins, the profits foot up satisfactorily.

The local grain market shows a little more activity, but prices are still tending lower. Especially is this true of corn. Oats are in active request and prices firm at quotations. Receipts of corn on the wagon market are unusually large, and this tends to break prices. Track bids, as reported by the secretary of the Board of Trade, yesterday, ruled as follows:

Wheat—No. 2 red. 68½c track; No. 2 red. 68½c on milling freight; No. 3 red. 64½@66½c track. Corn—No. 1 white. 58½c; No. 2 white. 58½c; No. 3 white, 58½c; No. 4 white, 54½@56½c; No. 2 white mixed, 55½c; No. 3 white mixed, 55½c; No. 4 white mixed, 55½c; No. 4 white mixed, 51½@53½c; No. 2 yellow, 55½c; No. 3 yellow, 55½c; No. 4 yellow, 51½@53½c; No. 2 mixed, 55½c; No. 3 mixed, 55½c; No. 4 yellow, 51½@53½c; No. 2 mixed, 55½c; No. 3 mixed, 55½c; No. 4 yellow, 51½@53½c; No. 2 mixed, 55½c; No. 3 mixed, 55½c; No. 4 mixed, 511-6531-c; ear, 521-c. Oats-No. 2 white, 371-c; No. 3 white, 361-c; No. 2 mixed, 36c; No. 3 mixed, 35c. Hay-No. 1 timothy, \$11.75@12.25; No. 2 timo-Inspections-Wheat: No. 3 red, 1 car. Corn: No. 2 white, 2 cars; No. 3 white, 19; No. 4 white, 1; No. 3 white mixed, 5; No. 4 white mixed, 1; No. 2 mixed, 2; No. 3 mixed, 3; No. 4 mixed, 2; no established grade, 2; total, 39 cars. Oats: No. 2 white, 2 cars; No. 2 mixed, 1; rejected, 1; total, 4 cars. Hay: No. 1 timothy, 3 cars: No. 2 timothy, 1; total, 4 cars. The local grain market is slow. Receipts are light and prices are easier. Corn is suffering another decline, and it is predicted by some of the older grain merchants that it will drop to 40c a bushel before the market will become steady and settled. Track bids, yesterday, as reported by the secretary of the Board of Trade, were weaker than on Monday, and on the wagon market corn dropped to 56c a bushel, there being over 100 loads on the mar-

yesterday, ruled as follows: WAGON MARKET. Wheat-70c Corn-56@58 Oats-38@40c per bu. Hay-Timothy, choice, \$11.75@12.50; mixed, \$9@ 10; clover, \$7@8 per ton; new hay, \$10.50@11 per

Charged with Theft of Wheels. James Miller, fourteen years of age, and living at 648 West Market street, was arrested yesterday for the theft of bicycles, to which he pleaded guilty. Several stolen wheels were traced by Bicycle Policemen Griffin and Manning to him. Two frames of bicycles were found in the canal. It was the plan to steal bicycles, remove the wheels and use them on old frames, which

could be purchased for almost nothing.

Alexander Yancy in Trouble.

Alexander Yancy, who was sent to the

workhouse several weeks ago for loitering,

was arrested yesterday and charged with

the theft of \$2 from John Wilhelm while

both were locked up at the police station The turnkey was not in the habit of searching Wilhelm, and he carried the money into the cellroom with him. Wall Street-By the Ticker. There by the ticker some one lies, The floor is red with stains.

There by the crooning ticker lies Hope, love, ambition, pride: For him who wields the tragic pen A tale is there to harrow men Who hurry on outside. Somewhere, perhaps, a little face

Who, while the changing seasons run,

And while a face is turning gray

The busy ticker croons away

Is pressed against a pane

In eager watchfulness for one

Shall let her watch in vain

Wait till you see Mrs. Austin.

Of losses and of gains.

There by the ticker some one lies Whose weary face is gray. And at his feet a mocking pile Of fragile tape keeps growing while The ticker croons away. -8. E. Kiser, in Leslie's Weekly.

THE BENEFIT TO THE WABASH PROBABLY OVERESTIMATED.

Proposed Trunk Line, of Which L. D. & W. and C., H. & D. Were to Form a Part, May Not Materialize.

The New York Post devotes considerable of the Wabash. Speaking of the proposed extension to Pittsburg, it says: "An extension into Pittsburg, if carried through, probably does not mean as direct and large benefit to the owners of the Wabash in increased earnings and traffic as the public seems to expect. Its other recent exten-Coffee-Good, 10@12c; prime, 12@14c; strictly sions, into Buffalo, to Toledo, passed comparatively unnoticed, will probably have 2214@33c; finest Mocha and Java, 28@30c; Java as much influence or more on direct earnings. The Pittsburg extension plans of President Ramsey show fertility of tesource, brilliancy of conception, courage to meet great obstacles and capacity to plan broadly, but the value of the line seems to lie chiefly in greatly improving the strategic importance of the Wabash. It is well justified in this effect. As a competitor for traffic, the single line of the Wabash from Chicago to Pittsburg can hardly seriously bother the Pennsylvania, with its many lines intersecting the whole territory. The Wabash will have tremendous power to disturb settled traffic conditions, and the line to Pittsburg will give the Gould system what no other combination of railroad capital can claim in the same sense, a line from far beyond the Missouri, across the Mississippi, beyond Chicago, and to the Alleghenies. The Gould management should be free from attacks on its traffic when it completes its Pittsburg line and gains the power which will thus be secured. In controlling the Wabash alone it will have good lines from Omaha, Kansas City and Des Moines to St. Louis and thence to Chicago, Detroit and Buffaio, as well as to Toledo, and also to Cleveland by trackage on the Big Four, and, via the Wheeling & Lake Erie and the new Pittsburg extension, into

# The C., H. & D. Western Outlet.

What is known as the northern connecting line is to be sold at Pattonsburg Oct. 12. It is stated that it will be bought by a committee of the bondholders and will be reorganized as an independent company and then sold to one of the larger systems. The Kansas City Journal says rumor has it that one of the several different strong lines will buy it, one rumor being that the Chicago, Burlington & Quincy will purchase it, with the Quincy, Omaha & Kansas City road, with which it connects at Pattonsburg, and another rumor is that the Chicago, Rock Island & Pacific will purchase it and thus secure a Kansas City inlet over its own rails; that the Chicago & Northwestern will buy it and use it as a part of an extension of its line southwest from Buxton, Ia., to Kansas City, and that it will be sold to the Gates interests, in control of the Quincy, Omaha & Kansas City, and will be by them operated in close connection with the Decatur & Western,

63c per gal; coal oil, legal test. 8½@14½c; bank, 47@50c; best straits, 50c; Labrador, 60c; West Virginia lubricating. 20@30c; miners', 40c; lard oils, winter strained, in bris, 50@60c per gal;

This latter arrangement is the original This latter arrangement is the original one planned by the interests that have been in control of the Omaha, Kansas City & Eastern system, including the Northern Connecting, the Quincy, Omaha & Kansas City and the Omaha & St. Louis. An effort was made by John W. Gates to have the Northern Connecting recognized in his interest, but the bondholders refused to accept his plan and adopted that of Mr. Chadbourne, which provides for independent reorganization. These plans received their first body blow from another source. The bondholders of the Omaha & St. Louis, dissatisfied with the Gates plan of reorganizing that road, secured a postponement of the foreclosure sale from July until October, and in the interim arranged for an outright sale of the property to the Wabash. This takes away an important arm of the proposed Gates system and renders it doubtful if the Gates plan to merge his roads and the extensions he proposed to build into a great trunk line in connection with the Cincinnati, Hamilton & Dayton

### can be carried out. Changes on the Santa Fe.

The Kansas City Times says this morn-"The Atchison, Topeka & Santa Fe tem extending from Chicago to Albuquerque, N. M., and Purcell, I. T., is to be divided in two grand divisions and operated under two general superintendents. J. E. Hurley, at present acting general superintendent of the Santa Fe-Pacific, Southern California and San Joaquin Valley railroads, the Santa Fe lines west of Albuquerque, will be the new general superintendent. The date of Mr. Huriey's appointment, which will be simultaneous with the division of the road, has not been definitely decided on. It will be either Sept. 15 or Oct. 1. C. F. Ressigue, at present general superintendent of the entire Atchison, Topeka & Santa Fe Railway, will continue to maintain headquarters in Topeka, in charge of the eastern grand division. Mr. Hurley will be in charge of the western grand division, with head-quarters at La Junta, Col. The supervision of General Superintendent Ressigue will extend over the main line and branch with headquarters at Chicago, paid a fee of lines east of Newton, Kan., and the main \$1,740.75 to the secretary of state yesterday line south from Newton to Purcell, I. T. perintendent Hurley's supervision will be over the main line and cided to build immense steamships for the

> cludes the Pecos Valley Railroad. Personal, Local and General Notes. The gross earnings of the Wabash in the third week of this month are \$43,100 in excess of the corresponding week of 1900. ler, of the Vandalia, who have been on a three days' trip over the Vandalia, acthe Terre Haute & Indianapolis, will return this morning, and Mr. McCrea will proceed to Pittsburg. With two new roads entering Richmond Ind., the railroad men are organizing branches of the different associations, One branch of trainmen, having forty-five members, have asked for a charter from the

Grand Lodge, and the firemen at that point are organizing divisions of the Brotherhood of Locomotive Firemen. It is stated that the Atchison, Topeka & Santa Fe Railway has purchased the Kansas Southwestern Railway, which runs from Arkansas City to Anthony, Kan., a distance of sixty miles. It is said the Santa Fe desires the line to prevent opposition to its proposed road from Arkansas City in a southeasterly direction to Fort Smith,

The directors of the Southern Pacific Company at New York met yesterday, but transacted only routine business. It was stated that no action was taken on the resignation of President Hays. The executive committee of the Union Pacific Railway Company also held a brief session, at which it was said only routing business was considered. Thomas Schumacher, who has been ap-

pointed traffic director of the Oregon

Short-line, worked for a time in a local

freight office of the Big Four, thence going to the Panhandle, filling the positions of brakeman and fireman, and for one year was trainmaster, later returning to the freight traffic department and going to the Union Pacific in 1888. The New York Mail and Express says: 'The Northern Pacific Railroad has de size as those now building at New London,

Conn., for the Great Northern Railway They will be of 28,000 tons, or with three times the capacity of an average ocean When the new four-track stretch between Stewart, Latrobe and Lawrenceville is completed the Pennsylvania will have great running ground between Cresson and Pittsburg, and 100 miles an hour, it is believed, can be readily made. There are those who predict that the run from Pittsburg to Cresson can be made in one hour and thirty

minutes when contemplated improvements

are completed. President Sexton, of the Board of Health of New York, has served on President Newman, of the New York Central Railroad, an order requiring him to "alter, repair and improve" the railway's tunnel from Fifty-sixth street to Ninety-fifth street. The order requires a general overhauling of the sewerage system under the tunnel and the removal of some of the supporting walls and their replacing by steel girders of a more modern type. Freight officials of the Western and Northwestern lines are beginning to worry over the prospective shortage of cars. Al roads are working to their full capacity, with prospects that with the coming in of September the shortage will become more troublesome. The Missouri river lines are having trouble from a congestion of business at division points, and the movement of the grain crops has not fair-

ly set in in some sections of the West and H. M. Bronson, assistant general passenger agent of the Big Four, who has been out on western divisions, has returned, He expresses much surprise over the excellent condition of the growing corn crop on the Peoria & Eastern and the Indiana Decatur & Western. He says farmers tel him that so much larger acreage was planted this year than in 1900 that this year's crop will exceed in quantity that of 1900, with but 75 per cent. of a crop,

# as compared with last year. Lamp Explosion in a House.

A lamp explosion in the boarding house of Mrs. McCullough, 214 North Capitol avenue, at 3 o'clock yesterday morning, caused a small fire and great exctlement in the neighborhood and especially among the occupants of the rooms. The fire destroyed some lace curtains and damaged the carpets before it was put out. Room ers, on being advised of the fire in the house, hurried out, not stopping to pick up their clothing or dress. John Miller, a boarder, had his hands slightly burned while trying to extinguish the flames.

# Garden Concerts at End.

The last garden concert of the season was given last Friday night at the German House. The garden will be open to-night. but there will be no music.

Would you trust to luck and not insure your home against fire? Of course not. Why trust to luck in regard to the title to your real estate? Insure it, too. INDIANA TITLE GUARANTY AND LOAN COM-
